To: Wirf's Industries, Inc.  
From: Chief Frank Slazes  
Subject: Refurbishing of Pumper/Tanker #2460

Dear Tim,

On behalf of the Officer's and members of the Lake Villa Fire Department, I would like to take this opportunity to thank you and all your employees for the excellent work performed to the reworking of our 1983 Mack Pumper/Tanker.

After the return of our rig, it is obvious to see that you and your staff take pride in your work and accomplishments as the apparatus returned to us appeared to be brand new. From the smallest detail to larger items such as the new running board under-structures, tail board under-structure, new aluminum tread plate, new body panels, new compartment doors, re-working of battery box and fender liners, the superb body and paint work by Vaneck, and the striping and lettering it is apparent that no job is too big for you and your staff.

Again, we thank you and please feel free to use us for a reference anytime.

Sincerely,

Frank Slazes, Chief  
Lake Villa Volunteer Fire Department
