To whom it may concern
Regarding Tim Wirfs of Wirfs Industries, Inc.

The Mundelein Fire Department has been a loyal customer of Wirfs Industries for over 7 years. Our long association with Wirfs is due to the commitment and dedication exhibited by the organization particularly Mr. Tim Wirfs. Tim has proven himself to be a leader in the field of fire apparatus and ambulance maintenance. When a problem is noted, we can always count on Tim to come to our aid and return our equipment to full service quickly.

Tim has committed and re-invested his resources to continually improve Wirfs' ability to respond by upgrading his knowledge, tools and facilities to accommodate all of our repair/preventative maintenance needs.

Regarding preventative maintenance, I feel Tim has established a model that could serve as an industry standard for the monitoring of fire equipment. This monitoring has allowed us to reduce equipment down time by finding and correcting problems before they resulted in costly, and time consuming failures. Again, Tim has shown himself to be a leader in this field.

In closing, we are extremely pleased with the quality of work, the attention to detail, and the commitment to the Fire Service demonstrated by Tim Wirfs. Should I be able to answer any questions regarding Mr. Wirfs or our satisfaction with Wirfs Industries, please feel free to contact me at your convenience.

Sincerely,

A handwritten signature in black ink, appearing to read "Randy C. Justus". The signature is written in a cursive style with a large initial "R".

Randy C. Justus
